

**PLACEMENT TEST  
SAMPLE PACKAGE**

---

Our Placement Tests are designed to evaluate your trainee's knowledge of the subject matter in a complete TPC/Schoolcraft course before they begin the program. By doing so, some trainees may be able to "test out" of certain parts of your program, saving both time and money in the program. Other trainees will learn that they know less than they thought about certain subjects, providing an incentive to study what they otherwise might think is beneath them.

The list below shows the three sizes of our Placement Test packages plus the Refill Package that replenishes your supply of answer sheets and prescription forms. The list on the back of this sheet shows all the Placement Tests available.

For more information, or to place an order,  
call your Schoolcraft Account Representative at
